PROFESSIONAL SUMMARY

Software Developer and Programmer Analyst with experience developing enterprise and database-driven applications using C#, .NET, Java, SQL Server, Oracle, and Python. Skilled in system analysis, backend development, database optimization, and production support across the full software development lifecycle.

Experienced building financial dashboards, ETL pipelines, and data reporting solutions using SQL, Power BI, and Tableau. Strong background in database performance tuning, query optimization, and structured system design.

Able to translate business requirements into scalable technical solutions with a strong focus on data integrity, system reliability, and maintainable code.

TECHNICAL SKILLS

Programming Languages : C#, Java, Python, PHP, JavaScript, C, C++, Advanced Java

Frameworks : .NET Framework, .NET Core, ASP.NET MVC, J2EE

Databases : SQL Server, Oracle, MySQL

Database Technologies : T-SQL, PL/SQL, Stored Procedures, Query Optimization, Indexing, Data Modeling

Data & Analytics : ETL Pipelines, Data Validation, SQL Analytics, Python (Pandas, NumPy)

Business Intelligence : Power BI, Tableau, SSRS, Crystal Reports, Advanced Excel

Web Technologies : HTML, CSS, REST APIs

Tools : Visual Studio, IntelliJ IDEA, Git, GitHub, Bitbucket, Jenkins, Jira

Operating Systems : Unix, Linux

Software Engineering Concepts : Object Oriented Programming (OOP), SDLC, System Analysis, ERP Systems, Debugging, Code Optimization, QA Testing, Version Control

PROFESSIONAL EXPERIENCE

Technical Support Specialist

GEXEL Telecom, Montreal, QC

July 2025 – October 2025

- Provided real-time technical support through inbound calls and chat to resolve internet connectivity and service issues.
- Diagnosed service disruptions using structured troubleshooting methods and system diagnostics.
- Verified customer identity and account information to ensure secure access and fraud prevention.
- Delivered step-by-step technical guidance to customers in clear and accessible language.
- Documented incidents and maintained detailed troubleshooting records.

Web Developer / Programmer Analyst (Intern)

Cyber Hygienique, Montreal, QC

September 2024 – December 2024

- Modernized a legacy platform into a database-driven system using C#, .NET, and SQL Server.
- Implemented data validation, reconciliation workflows, and audit trails to ensure financial data integrity.
- Built real-time dashboards and KPI reporting tools using SQL and Power BI.
- Designed optimized T-SQL queries, stored procedures, and indexing strategies for high-volume processing.
- Developed ETL-style data pipelines for automated data extraction and reporting.
- Reduced manual reporting workload by over 60 percent through automation.
- Conducted root cause analysis on production incidents, reducing system errors by 40 percent.
- Produced documentation including ERDs, DFDs, and system workflow diagrams.

Trainee Web Developer

Techaronic IT Solutions (Remote)

December 2021 – August 2022

- Developed backend components using Java (J2EE), C#, .NET, PHP, MySQL, and Oracle.
- Built database-driven modules with strong focus on data validation and data integrity.
- Developed PL/SQL stored procedures, triggers, and SQL Loader scripts for bulk data processing.
- Improved application performance by approximately 25 percent through query optimization, indexing, and code refactoring.
- Collaborated on CI/CD pipelines using Jenkins and Bitbucket.

Software Support Executive

Visual InfoSoft Pvt Ltd, India

March 2021 – October 2021

- Provided enterprise software support focused on Oracle database systems and SQL performance tuning.
- Investigated slow queries and optimized execution plans for financial reporting modules.
- Analyzed application defects, reproduced issues, and documented root cause and solutions.
- Supported development teams in improving data retrieval performance and reporting accuracy.

Recruitment Consultant

Quantic Global Ltd, India

July 2022 – April 2023

- Recruited healthcare professionals including doctors and nurses for UK hospitals and NHS organizations.
- Conducted candidate sourcing, screening, compliance verification, and onboarding coordination.
- Managed candidate pipelines and maintained regulatory compliance documentation.
- Performed outreach campaigns and cold calling to identify qualified candidates.

Tutor

Shivam Engineering Classes, India

July 2018 – September 2019

- Tutored engineering students in programming fundamentals and technical subjects.
- Helped students strengthen analytical and problem-solving skills.

PROJECT EXPERIENCE

Online Crime Management System

Technologies: HTML, CSS, PHP, MySQL

- Developed an online platform allowing citizens to register police complaints digitally.
- Implemented secure authentication, complaint submission workflows, and backend database management.
- Created documentation including system flowcharts, data flow diagrams, and workflow diagrams.

Multi-Tier Web Application

Technologies: Java, MySQL, REST APIs

- Designed a three-layer architecture separating presentation, business logic, and data access layers.
- Developed relational database schemas and optimized SQL queries.
- Integrated REST APIs for communication between application layers.

Mobile Habit Tracker Application

Technologies: Android, Firebase Authentication, Firebase Realtime Database

- Developed an Android application supporting habit creation, editing, deletion, and tracking.
- Implemented secure user authentication and real-time cloud data storage.
- Focused on input validation, data consistency, and intuitive UI design.

EDUCATION

AEC – Information Technology Programmer Analyst

LaSalle College, Montreal

September 2023 – December 2024

Key Coursework : Algorithms and Programming, Database Management, Web Development, Mobile Development, Object Oriented Programming, Trends in Technology

Bachelor of Computer Engineering

Gujarat Technological University, India

July 2017 – June 2021

CGPA: 8.50

Relevant Coursework : Data Structures, Database Management Systems, Operating Systems, Computer Networks, Cyber Security Web Technologies

LANGUAGES

English – Fluent

French – Basic

Hindi – Native

Gujarati – Native
